Let's Go Island 3D | Sega | Video

Let's Go Island, the follow up to the number one Sega action adventure game 'Lets Go Jungle' is now in 3D! Sega has used the latest in 3D technology so you dont even need to wear 3D glasses! Watch in amazement as the island comes to life right before your eyes. Be immersed in this nonstop action, 2 player island adventure with it's 3D graphics, frantic rapid fire game play and it's fun filled story line!

2 Player | 55" 3D LCD screen | Glasses free 3D technology | Fixed rapid fire 'no reload' guns | Family fun adventure

Gameplay

Players are on a South Pacific island diving tour and soon end up in trouble with modern day pirates. Players must work together to survive everything the island has to throw at them. Like it's predecessor, Let's Go Island see's players take on a wide range of enemies and must work together to succeed. The exciting action sequences are back where players must time the actions together to conquer the challenges presented to them. There are also multiple routes to choose from as well as dangerous end stage bosses to defeat.
